Looking Back...

January came and went so fast! The toddlers have been having fun playing with the balls. They have had a ball with the ball pit, ball toss, and just kicking the balls around the class room. The preschool children have been spending their time building towers out of blocks. We are so amazed at the math and engineering concepts that are being explored! The kinders have been working on team building games both inside and outside, and the school age children have been focusing on social skills by playing a lot of group games and working together to solve problems.

Looking Forward...

On Thursday, February 16th we will be hosting a dinner in celebration of Family Day! We will be having chili and mac & cheese. There will be a list of items needed to make the dinner on the parent board. If you are interested in donating some ingredients, please let us know! We will be closed on February 20th for Family Day!

We look forward to new adventures and more learning in 2017!

Announcement from ED

In February, we celebrate Family Day. This is a special day for families to spend time together, celebrating their relationships. We have some special events planned this month to celebrate our relationships with our Happy Face families. We believe it is so important to take time to get to know each other better. Building connections between home and child care, between families and educators, gives children a sense of belonging and security which sets the foundation for learning. Families know their children best and are the first and most powerful influence on their children's learning. Families have a unique understanding and perspective of their children – we invite you to share with us your stories about your children so that we may gain a deeper understanding of them. Together, we can give your children their best start in life!

Happy Face Nursery School

Serving Families at six locations in SD&G

Providing quality child care for more than 40 years!
