

Looking Back

During the month of June, we have continued to have our program almost completely outside. There has been a lot of activity in our sandbox as we have had construction zones, used car lots, baking contests, and various homes and roads constructed. Now that the much warmer weather has arrived, we have added a great deal of water play to help us cool off. We have been trying out making gigantic bubbles using different types of wands and other items with holes in them. Of course, it has been a lot of fun popping them!

Looking Ahead

In July, we are starting our summer program and combining North Stormont and Roxmore programs. Each week we will have a different theme with lots of activities to go along with that theme. This month we have “Mad, Messy Art”, “Books, Books, Books”, “Master Chef”, “Busy Builders”, and “Super Science”. Along with our fun activities, we will be welcoming special guests as well.

We are looking for volunteers to participate in our summer activities. If you are able to come into the site/sites and share your experiences and talents with the children, please contact your child's educator.

A Note from the Executive Director...

Dear Parents,

We are looking forward to a fun-filled summer! We will have special activities, guests, and events every week! Please speak with your child's educators and watch Parent Portal for more details!

We would like to thank everyone who donated items for our Facebook auction as well as those who bid on the items. Thanks to your generosity, we raised over \$2000 for our summer programs!

We have booked a field trip to Skywood in August for our kindergarten and school age children. It was their favourite event last year, and we are so excited to be able to return this year! The trip is planned for August 13, with a rain date of August 27.

Due to parent requests, we are offering a lunch program for kindergarten and school age children; please speak to your Lead Educator to get an order form and for more information.

Wishing everyone a wonderful and sunny summer!

Cheryl Firlotte
